

# Networking Golf League

The Networking Golf League is a unique community partnership of locally owned businesses united to foster networking opportunities in a golfing forum.

## Sponsorship Reservation Form

The positive association of business and golf events has become more evident as businesses are spending greater sums to convince the public to identify their products and services with major golf events: The Buick Open, The Wegmans Rochester LPGA, The Honda Classic to name just a few.

We invite you to associate your business with a unique community event which fosters local business networking and growth opportunities while also gaining exposure for your product or service to hundreds of business professionals/decision makers for local companies, who potentially make business decisions for numerous employees, customers and/or clients.
